Patented Coverage That Works

The multi-layered construction of the seat cover ensures that they stay in place throughout the entire service process.

Slip-N-Grip®'s dual layers have extra elasticity and strength, outperforming even thicker single-ply plastics.

SLIP LAYER

Top layer is smooth, so porters and service technicians can slip in and out of vehicles quickly and easily.

GRIP LAYER

Formulated with high friction plastics so it grips the seat of any surface: cloth, carpet, or leather.

SUSTAINABLE SEAT COVER

- Made with 25% Post-Consumer recycled content
- Green advantage without the added cost

Meet Sustainability Goals

This first-to-the-market seat cover contains 25% post-consumer recycled plastic, making it the perfect addition to any operation focused on meeting sustainability goals. These recyclable and domestic-made seat covers have the added bonus of lowering carbon impact and contributing to a circular economy, all while keeping the familiar and trusted Slip-N-Grip® brand.
